

Corporate Social Responsibility

Stafa Group B.V. is aware of its place in, responsibility for and influence on society. To us, society means more than the immediate vicinity of the places where we operate as a company. Corporate Social Responsibility (CSR) is therefore self-evident for us. Within our company, we care for our stakeholders, each other, our environment, society and our planet. The future is of great importance at all levels for Stafa.

Stafa is constantly looking for the right balance in its own business operations, products and services, but also as a partner in the supply chain. With internal process management aimed at sustainability, continuous process improvement, energy and waste management, 100% green energy, our CO² performance ladder and objectives, attention for working conditions, lean thinking, membership of the UN Global Compact reflect some of our CSR efforts. With result.

Stafa is a socially involved and sustainable organization. We have set out a framework for this by means of our company statements and our own Code-of-Conduct.

Stafa Group stand for:

- Sustainable and ethical responsible entrepreneurship
- Sustainable processes and supply chain
- Being a transparent and engaged company for our stakeholders
- Being a good employer
- Be socially involved and actively engaged with our community

We support UN Global Compact

Stafa is pleased to confirm that we reaffirm our support of the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labor, Environment and Anti-Corruption.

In this annual Communication on Progress, we describe our actions to continually improve the integration of the Global Compact and its principles into our business strategy, culture and daily operations. We also commit to share this information with our stakeholders using our primary channels of communication.

The UN Global Compact is a strategic policy initiative for businesses that are committed to aligning their operations and strategies with ten universally accepted principles in the areas of human rights, labour, environment and anti-corruption. By doing so, business, as a primary driver of globalization, can help ensure that markets, commerce, technology and finance advance in ways that benefit economies and societies everywhere.

We at Stafa support this initiative actively and we would like to ask our business partners to commit accordingly. We prefer doing business with partners who share this common vision.
